

Etesia Hydro 80 Range

Ride-On Collector Mower

Why Etesia Is Different

Unlike conventional ride-on mowers designed around the chassis, Etesia machines are engineered around the cutting system first. This delivers superior cut quality, airflow and grass collection in conditions where standard collectors struggle.

The Hydro 80 Lawnmower is a versatile tool designed to meet the needs of professional gardeners.

It adapts to all mowing conditions, giving the ability to choose, to collect the grass, mulch or discharge out the side. This versatility makes the Hydro80 an essential choice for green space experts, Easy emptying of the 240litre grass box from the driver's seat. Direct rear ejection, no jamming, suspended steel cutting deck, front anti-scalp rollers, diff lock for better slope grip, Ultra-short turning circle

Model	MKHP3	MKHP4	MKHP5	MKHPF
Cutting Width	80cm	80cm	80cm	85cm
Grass box capacity	240 litres			
Emptying height	Ground			
Engine	Kawasaki FS481V OHV 2 Cylinder Petrol			
Engine HP	16hp			
Drive	Hydrostatic 2-rear wheel drive			
Forward speed	0 to 9 km/h			
Recommended Area	10,000 Square Meters per day			
Fuel tank	12litres			
Cutting height adjustment	44 to 102mm 5 positions centralised	44 to 102mm 5 positions centralised	44 to 102mm 5 positions centralised	50 to 90mm 4 positions centralised
Weight	230kg	230kg	230kg	230kg
