

Etesia BAHIA Electric Range

Ride-On Collector Mower

Why Etesia Is Different

Unlike conventional ride-on mowers designed around the chassis, Etesia machines are engineered around the cutting system first. This delivers superior cut quality, airflow and grass collection in conditions where standard collectors struggle.

The electric ride-on mowers retain the performance of the BAHIA range, while adding innovation, ecology and economy, they can be used all year round for a variety of maintenance jobs and quiet travel.

With Bahia Electric, let's move forward together towards greater efficiency and ecological footprint

Model	M2E	M2EL
Cutting width	80cm	
Grass box capacity	240 litres	
Emptying height	Ground	
Battery Power	4 x 12v -100Ah	48v-100Ah
Battery Type	AGM Lead Acid	Lithium
Autonomy	1h30 to 2h (dependent on conditions)	3h to 4h (dependent on conditions)
Drive	Hydrostatic 2-wheel drive	
Blade	Electric blade 1.7kW-48V	
Forward speed	Up to 8 km/h	
Recommended Area	Up to 3000 Square Meters per day	
Weight	330kg	250kg
Cutting Height	44 to 102mm 5 Positions
