

Etesia BAHIA Range

Ride-On Collector Mower

Why Etesia Is Different

Unlike conventional ride-on mowers designed around the chassis, Etesia machines are engineered around the cutting system first. This delivers superior cut quality, airflow and grass collection in conditions where standard collectors struggle.

The BAHIA ride on mower is compact and flexible enough to cope with any terrain and any job. With its optimum driving position, intuitive controls and enhanced safety, it opens the door to new levels of satisfaction, Easy emptying by gas cylinder from the driving seat, 360 degrees clear view thanks to the engine position,, adjustable seat, compact, ultra short turn radius to sneak anywhere, cutting system using a direct rear lateral ejection to avoid jamming, steel suspended cutting deck.

Model	MHHE2	MBHE2	MKHE3
Cutting Width	100cm	100cm	100cm
Grass box capacity	240 litres		
Emptying height	Ground		
Engine	Honda GXV390 OHV	B&S Intek 4155 OHV	Kawasaki FS481 V OHV
Engine power	16hp	15.5hp	16hp
Drive	Hydrostatic 2-wheel drive		
Forward speed	Up to 9 km/h		
Recommended Area	5000 Square Meters per day		
Fuel tank	12litres		
Weight	230kg		
Cutting Height	44 to 102mm 5 Positions
