

Etesia Buffalo 100III Range

Ride-On Collector Mower

Why Etesia Is Different

Unlike conventional ride-on mowers designed around the chassis, Etesia machines are engineered around the cutting system first. This delivers superior cut quality, airflow and grass collection in conditions where standard collectors struggle.

The Buffalo 124 uses two counter-rotating blades for more power and faster mowing speed,. A fully open discharge channel and Aluminium cast-iron double-turned tray for increased life

Key advantages include cutting system designed before the mower, counter-rotating blade technology, uninterrupted grass flow, and genuine high-performance collection without compromise.

Model	MKEHH		MK124	
Cutting Width	100cm		124cm	
Blades	2 counter-rotating			
Grass box capacity	500 litres			
Engine	Kawasaki FS541V OHV		2-cylinder Petrol	
Engine power	18hp			
Drive	Hydrostatic		2WD	
Forward speed	Up to 12 km/h			
Recommended Area	10,000 Square Meters per day			
Fuel tank	14 litres			
Weight	MKEHH	445kg	MK124	475kg
Cutting Height	39mm to 97mm centralized with 6 positions			
Diff Lock	Yes
