

Etesia Hydro 124 Range

High-Output Ride-On Collector Mower

Why Etesia Is Different

Unlike conventional ride-on mowers designed around the chassis, Etesia machines are engineered around the cutting system first. This delivers superior cut quality, airflow and grass collection in conditions where standard collectors struggle.

The Hydro 124DX uses two counter-rotating blades positioned at 90 degrees, overlapping to generate exceptional lift and airflow. A fully open discharge channel and bell-shaped cutting deck allow uninterrupted grass flow without clogging, even in long or wet grass.

Key advantages include cutting system designed before the mower, counter-rotating blade technology, uninterrupted grass flow, and genuine high-performance collection without compromise.

Model	DL	DN	DX
Cutting width	124 cm		
Blades	2 counter-rotating		
Grass box capacity	600 litres High Lift up to 1.8m		
Emptying height	Hydraulic, from Ground up to 1.8 m		
Engine	Kohler 3 cyl. diesel		
Engine power	25 hp (18 kW)		
Transmission	Hydraulic 2 WD	Hydraulic 2 WD	Hydraulic 4 WD
Forward speed	Up to 16 km/h		
Recommended Area	30,000 Square Meters per day		
Fuel tank	19 litres		
Weight	DL 815kg	DN 860kg	DX 895kg
Removable Deck	Optional	Yes	Yes
Cutting Height	45 to 125mm plus 1 Transport Position
